

MUHAMMAD SHAHZAD

shazd4666@mail.com@gmail.com | 03448908758 | Lahore, Punjab, Pakistan | [linkedin.com/in/muhammadshahzad-269b67409](https://www.linkedin.com/in/muhammadshahzad-269b67409)

PROFESSIONAL SUMMARY

Highly motivated AI Engineer and Data Scientist with a BS in Software Engineering (CGPA: 3.45/4.0) and certifications in Data Science and Artificial Intelligence. Specialized in Generative AI with hands-on experience designing, fine-tuning, and deploying intelligent systems using Hugging Face and OpenAI ecosystems. Proficient in LLMs, Transformer architectures, Diffusion models, and RAG pipelines using LangChain. Experienced in prompt engineering, custom chatbot development, AI automation, and integrating GenAI solutions into real-world applications. Demonstrated expertise in fine-tuning models (LoRA/PEFT), AI agent development, n8n automation workflows, and building production-ready intelligent chatbots.

TECHNICAL SKILLS

AI & Machine Learning	LLMs, RAG Pipelines, NLP, Deep Learning, Diffusion Models, LoRA/PEFT Fine-tuning
Frameworks & Libraries	LangChain, Hugging Face Transformers, OpenAI API, Google Gemini
Automation & Agents	n8n Automation, Agentic AI, AI Agents, Workflow Automation, API Integration
Programming	Python, Web Development (HTML / CSS / JavaScript)
Platforms & APIs	WhatsApp Business API, Google Sheets API, SerpAPI, REST APIs
Other Skills	Prompt Engineering, Chatbot Development, Model Inference Optimization

WORK EXPERIENCE

Artificial Intelligence Engineer

March 2026 – Present

EcomExpert | Lahore, Pakistan

- Design and deploy AI-powered automation systems using n8n workflows and LLM integrations.
- Build and fine-tune large language models for business process optimization and customer engagement.
- Develop intelligent chatbots and conversational AI solutions integrated with WhatsApp Business API.
- Implement RAG pipelines using LangChain for context-aware AI applications.

Python / Data Science

Sep 2024 – Feb 2025

Digicon Valley | Lahore, Pakistan

- Developed Python-based data science solutions for analysis, visualization, and reporting.
- Applied machine learning models for predictive analytics and business intelligence tasks.
- Worked with data pipelines and automated ETL processes for structured datasets.

Artificial Intelligence Engineer

Jan 2024 – Jun 2024

Wise Teck | Lahore, Pakistan

- Designed and implemented AI models using Hugging Face and OpenAI ecosystems.
- Built generative AI prototypes including text-to-image workflows and NLP applications.
- Optimized model inference and deployed production-ready AI services for clients.

Web Developer

Jan 2023 – Jun 2023

Briksol | Lahore, Pakistan

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with design teams to implement UI/UX improvements and ensure cross-browser compatibility.

EDUCATION

CERTIFICATIONS

- Python for Data Science, AI & Development (NAVTCC)
- Artificial Intelligence (Coursera)

KEY HIGHLIGHTS

- WhatsApp Business API integration for automated customer communication systems
- AI Agents development using LangChain and OpenAI for autonomous task execution
- Google Gemini integration for multimodal AI application development
- n8n workflow automation with Reddit lead generation, Google Sheets, and Gmail integrations

HOBBIES

- Cricket
- Cycling
- Reading

LANGUAGE

- English
- Urdu
